

JAMES AGUS

Bagbaguin, Valenzuela City | 09525401983 | jamieagus1@gmail.com | <https://www.linkedin.com/in/james-agus-b40707411/>

OBJECTIVE

Motivated Bachelor of Science in Information Technology (BSIT) student with hands-on experience in web development, multimedia design, system testing, and technical documentation. Proficient in developing academic and capstone projects using modern web technologies. Seeking an IT internship opportunity to apply programming, problem-solving, and development skills in a professional environment.

EDUCATION

Bachelor of Science in Information Technology	2023-2026
<i>Pamantasan ng Lungsod ng Valenzuela</i>	<i>Maysan road corner Tongco street, Maysan, Valenzuela City</i>

PROJECTS

Electron-Hub System (Capstone Project)	2026
<i>Front-end Lead</i>	https://electron-hub.vercel.app/

- Led frontend development and contributed to system analysis, testing, and technical documentation to ensure structured project delivery
- Identified and resolved system bugs, improving overall system performance by approximately 20%
- Coordinated project planning and task tracking to ensure timely completion and quality compliance
- Collaborated with developers to maintain system functionality, usability, and consistent communication across the team

Evita Salon Website	2025
<i>Web Designer and Developer</i>	

- Designed and developed a full-featured salon website with service listings, gallery, booking, and contact sections
- Improved user experience and website structure, achieving an estimated 85% user satisfaction based on feedback and testing
- Applied responsive web design principles to ensure mobile and desktop compatibility
- Enhanced navigation and layout design to increase usability and engagement

Personal Portfolio Website	2025
<i>Designer and Developer</i>	

- Developed a personal portfolio website to showcase academic and technical projects for career development
- Applied UI/UX and multimedia design principles to create a clean and engaging interface
- Organized project content for improved accessibility and professional presentation
- Implemented responsive layout to support multiple device screens
